DETAILED ACTION

1. The amendment filed on 4/15/04 has been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 16, 18-22, 49, 50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not support the newly added limitation "ring sections oriented perpendicular to the longitudinal axis".

4. Claims 16, 18-22, 49 and 50 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for ring sections oriented parallel to the longitudinal axis of a stent body, does not reasonably provide enablement for ring section oriented perpendicular to the longitudinal axis. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. The specification does not support the newly added limitation "ring sections oriented perpendicular to the longitudinal axis."

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3731

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 49 recites the limitation "the stent cover" in lines 5-6. There is insufficient antecedent basis for this limitation in the claim.
